WORK EXPERIENCE / PROJECTS

Software Engineer, Hubtel Ltd – Accra, Ghana

July 2023

- Developed and maintained feature APIs and consumers for the Hubtel Messaging and LendScore platforms
- Contributed to minimizing and reducing code redundancy and enhancing code reuse leading to increased development efficiency.
- Enhanced code quality and code performance by writing unit tests and reducing code complexity.
- Leveraged Postman and Swagger for API testing.

Software Developer, Innorik Ghana Ltd

Oct 2022

- Collaborated with team to design, build and test software products using agile software design principles. Effectively coded software changes and alterations based on specific design specifications.
- Built software products using C#, .Net tools and libraries. Develop products while following SOLID Principles and CLEAN Architecture guidelines. Utilized OOP concepts as well.
- Consumed APIs with React

Member, Trestle Academy Ghana

Nov 2018 – Oct 2022

- Participated with fellow club members in workshops and training sessions on machine learning, AI, and data science, fostering a vibrant learning environment for aspiring data enthusiasts within the university community.
- Actively engaged in hands-on projects, applying machine learning algorithms and techniques to real-world datasets.
- Participated in hackathons and data science competitions, showcasing my willingness to learn. These experiences honed my teamwork, problem-solving, and communication abilities.

WordPress Developer & Website Maintenance, Change Promotions

March 2020-July 2021

- Customized WordPress themes and plugins to meet clients' specific requirements, providing unique and tailored solutions that aligned with their branding and business goals.
- Conducted thorough website audits and performed regular updates and maintenance tasks, ensuring websites were secure, up-to-date, and performing optimally.
- Demonstrated effective project management skills by efficiently managing multiple client projects simultaneously, meeting deadlines, and maintaining open lines of communication to ensure client satisfaction.

- Supported the IT team in the maintenance of hardware, software and other systems.
- Troubleshoot issues with equipments like printers, computers and servers.
- Answered incoming telephone calls, took down messages and provided information

VOLUNTEER ACTIVITIES

STEM Education Volunteer

August 26 2024

- Participated in a workplace volunteer initiative by HUBTEL in partnership with BASICS international to introduce young students to foundational programming skills using educational robots.
- Actively engaged children in hands-on coding and robotics activities, making technology accessible and fun while fostering teamwork and problem-solving.

Mentor & Assessor — Hubtel Pledge (Corporate Social Responsibility Program)

January 27 2026

- Volunteered as a mentor under Hubtel's CSR initiative, guiding students through curated learning materials and conducting virtual assessments to evaluate comprehension and progress.
